MMR Vaccine Clarification	1
---------------------------------	---

MMR Vaccine Clarification

The Measles vaccine (or, if not available, Measles, Mumps and Rubella [MMR] vaccine) is recommended for children as young as 6 months in outbreak situations, or for international travel. This recommendation is intended to clarify policy announced in the April 2006 *Medi-Cal Update*.

This information is reflected on manual replacement page rates max chdp 4.
